

## MEDIA RELEASE

11 September 2009

### JKTech Enters Inaugural B2B Team

JKTech has entered its inaugural team in Brisbane's long running charity race, the Bridge to Brisbane.

On Sunday 30<sup>th</sup> August 2009, a total of 23 JKTech staff joined a record 45,000 participants in sacrificing their Sunday sleep-in to help raise much needed funds for the 2009 major beneficiary, The Heart Foundation.

Bright and early at 6:25am on race morning, the keenest of Team JKTech joined their 10km race event competitors at Murarrie to begin their trek, starting with the grueling Gateway Bridge ascent. Ben Steyn and Suzy Stark were stand-out runners of the 10km team, making times of 41:23 and 46:49 respectively.

Later that morning, at a more leisurely 9:30am, the runners, walkers and pram-pushers of the 5km event commenced their journey, leaving from picturesque Portside at Hamilton.

Both races culminated at the RNA showground with stalls, food and entertainment for those who were keen to kick back, relax and make a day of it. Bring on B2B 2010!

#### About JKTech

JKTech Pty Ltd is the technology transfer company for the Julius Kruttschnitt Mineral Research Centre (JKMRC) and other Centres of the Sustainable Minerals Institute at The University of Queensland. Its role is to take viable research outcomes and transfer them to the international minerals industry. JKTech offers a range of innovative solutions for the minerals industry aimed at increasing productivity and metal recovery and reducing operating costs. These specialist products and services include consulting, software, equipment, laboratory services and knowledge transfer.
