

MAY 2010

19-21 Brisbane, Australia Opening the Gate to Improved Community Relations in Mining

JUNE 2010

16-18 Brisbane, Australia Emerging Trends in Environmental and Social Risk Management in the Resources Sector

21-23 Brisbane, Australia Comparative Statistics and Experimental Design

JULY 2010

8-9 Brisbane, Australia Mass Balancing Plant Data (includes Introduction to JKMBal)

12-14 Brisbane, Australia Building Productive Community Relationships for the Resources Sector

12-16 Brisbane, Australia Simulation and Optimisation of Crushing and Grinding Circuits (includes Introduction to JKSimMet)

19-23 Brisbane, Australia Introduction to Mineral Processing

20-21 Brisbane, Australia Water Accounting and Management for the Resources Sector

26-28 Brisbane, Australia Measurement, Modelling and Simulation of Flotation Circuits (JKSimFloat)

AUGUST 2010

TBC Perth, Australia Innovations in Social Impact Assessment for the Resources Sector

18-20 Emerald, Australia Closure and Rehabilitation Planning

TBC Brisbane, Australia Blasting Engineering for the Resources Sector: Understanding the Performance of Explosives and Application of Precise Initiation Systems

SEPTEMBER 2010

3 Brisbane, Australia Introduction to Mineralogy

5 Brisbane, Australia Flotation Optimisation

6-10 Brisbane, Australia IMPC 2010

13-14 Perth, Australia Energy Efficient Mineral Extraction

15-16 Perth, Australia Emissions Management & Monitoring

21-23 Perth, Australia Practical Monitoring for Improved Environmental Performance for the Resources Sector
