

JKTech Training Courses

Course Schedule

June, 2008

30th – 2nd July Brisbane, Australia Measurement, modelling and simulation of flotation circuits

July, 2008

3th - 4th Brisbane, Australia Mass balancing plant data
(includes Introduction to mass balancing 3rd July)

7th – 11th Simulation and optimisation of crushing and grinding circuits using JKSimMet (includes Introduction to JKSimMet 7th July)

14th – 15th Introduction to mineral processing

16th Introduction to JKSimFloat

17th – 18th Quantitative process mineralogy

21st – 23rd Comparative statistics and experimental design

August, 2008

20th – 22nd Perth, Australia Comparative statistics and experimental design

June, 2008
